

100th Meeting**Wednesday 19th June, 2019**

Meeting held at:

TU Delft Aula Conference Center, Mekelweg 5, Delft, The Netherlands, Commissiekamer 3

Minutes

15.15 h (end of closing ceremony LPS) Start

1) Introductions and apologies (includes safety briefing)

Apologies: F. Babinec, Z. N. Pintaric, H-E. Gashe, T. Kilpeläinen, N. Markatos, E-M. Felix, T. Koert, H. Hassel, A. Jacobbson, J. Sommer, D. Manca, G. Pilkington, Q. Wang, R. Koivisto

2) LPWP membership

Update and wishes

The Chairman and all delegates express deep gratitude for their effective and long lasting contribution to LPWP as well as wishes for the future to retiring members: Adam Markowski (Poland) and André Laurent (France).

All members welcome new appointed delegates for the same Countries, respectively Agniezska Gajek and Laurent Perrin.

Current situation of delegates:

- Slovenia, Spain, Greece, UK each one open position
- No delegates of Austria, Bulgaria, Croatia, Denmark, Hungary, Romania, Russia, Turkey, Ukraine, etc.

An effort is required to find out new delegates, possibly from industry.

Referring to international guest members, delegates are invited to propose a new guest from China, as prof Wu Zongzhi did not reply to several invitations.

3) LP2019 Evaluation

GR presented updated numbers from LP2019:

419 participants

- 268 participants at the welcome reception c/o Porceleyne Fles
- 140 participants at the conference gala dinner (10 no-shows)
- 35 Countries - Australia, Austria, Belgium, Brazil, Canada, China, Taiwan, Colombia, Czech Republic, Denmark, Finland, France, Germany, Greece, India, Italy, Japan, Kuwait, Libya, The Netherlands, Norway, Poland, Ireland, South Africa, Russian Federation, Saudi Arabia, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, USA, UK.
- Most participants from the The Netherlands (106), Germany (68), Italy and Belgium (both 31).
- Attendance from Universities (71), Companies (229), Institutes/Ministries (119)

A roundtable discussion on LP2019 was performed.

Main points for future LP organization.

Excellent keynote speakers with 9 lectures representing an exception for LPS.

Good sessions but too many parallel sessions: maximum 4 to avoid confusing. Some sessions with few delegates.

Roundtables very interesting but it seems advisable avoiding different locations. Avoid having them at the end of the day.

Poster must be removed only at the end of the symposium: only poster present until the end will be considered for poster award. The winners of poster award must be present at the closing ceremony to receive the award.

Consider the options one chairman vs two chairmen. It can be better to have a co-chairman.

Author self-presentation seems a better option.

Time for full presentation too long: better selection of full oral presentation and reduction in their number, so increasing short oral presentations.

Many attendees complained about program layout. Ensure that EFCE logo is present in all brochures and programs.

Success of speed presentations with excellent timing.

Microphone handling too complex for people questions: it is important to have a person instructed for PC and video/audio system constantly present in each room.

Consider a young session dedicated to young researchers . Perhaps also a course, or school for young people. Possibility of organizing a dedicated PhD poster session to exchange experience.

Consider keynote lectures for revising the topics of future LPS. Possible items of interest for courses: “Engineering ethics” and “Risk communication to public”

Consider ending the symposium with lunch in the last day, instead of having post lunch sessions.

All these items will be further discussed at next “strategic meeting of LPWP.

4) LP 2019 Evaluation/selection papers for selected journals

Evaluation file for Process Safety and Environmental Protection (PSEP) – Loss Prevention Bulletin (LPB) was distributed among LPWP members to be returned to BF appointed guest editor by IChemE, by 30th July.

The selection process of papers for JLPPI and SS will be handled by guest editors and organizing chairmen of LP2019.

5) Academics workshop “Achieving Process Safety Competence in Engineering.”

VC led:

- Status planning “Achieving Process Safety Competence in Engineering”.
- Follow-up from “Roundtable on Process Safety Education” Status.

6) New ideas and strategic direction of the WP

This item will be the main focus of next meeting planned in Florence during ECCE 2019.

Following points were discussed in view of next meeting.

6.1 Translating ideas into new LPWP directions brainstorming and “To Do’s”

6.2 Communication strategy and key activity deadline

6.3 Planning next LPWP meeting

6.3 Website and social media development

<https://www.linkedin.com/groups/8605079>

7) News from EPSC and EFCE including forthcoming events

7.1 EFCE

EFCE E-Newsletter December 2018, February and April 2019 distributed

You can find EFCE's pages as follows:

Facebook – 'like' European Federation of Chemical Engineering

Twitter – Follow @EFCE_Comms

LinkedIn-Join European Federation of Chemical Engineering.

New dynamic website under development

Possibility of advertising EFCE events from LPWP

7.2 Future EFCE events

29th European Symposium on Computer-Aided Process Engineering ESCAPE-29 - Eindhoven, The Netherlands, 16-19 June 2019

3rd ANQUE-ICCE International Congress of Chemical Engineering Santander, Spain, 19-21 June 2019 (EFCE Event No. 757)

7th European Drying Conference –EuroDrying'2019 Torino, Italy, 10-12 July 2019 (EFCE Event No. 762)

ECCE12/ECAB5 –12th European Congress of Chemical Engineering &5th European Congress on Applied Biotechnology Florence, Italy, 15-19 September 2019 (EFCE Event No. 744) LPWP participation

CHEMCON-2019 72nd ANNUAL SESSION of the INDIAN INSTITUTE OF CHEMICAL ENGINEERS New Delhi, India, 16-19 December 2019 (EFCE Event)

ECCE13/ECAB6 -13th European Congress of Chemical Engineering & 6th European Congress on Applied Biotechnology Berlin, Germany, 19-23 September 2021

Next EFCE Scientific Board meeting in Florence during ECCE12-ECAB5 Tuesday 17 September 2019

7.3 EPSC

Update regarding European Process Safety Conference by EPSC

EPSC Board Meetings EPSC Board Meeting April 16, 2019 Wesseling/ Cologne

Big Data & Digitization (EPSC and CCPS) October 1 & 2 2019 DECHEMA House Frankfurt am Main, Germany

8) Any other Business + date & venue of next meeting(s)

NEXT MEETING is confirmed as follows:

Florence/I 18th September 2019 h: 9.30 at ECCE 12

17.00 h End & departures
